EXPERIENCE

Neurophysiology Technician

May 2002 to present

COLUMBIA PRESBYTERIAN HOSPITAL • NEW YORK, NY

Perform continuous EEG studies in the Comprehensive Epilepsy Monitoring Unit and in various intensive care units. Also perform routine EEG test on adults and pediatrics. Attend continuous education sessions weekly, which include patient record review.

EEG Technician

December 2000 to May 2002

ENGLEWOOD HOSPITAL • ENGLEWOOD, NJ

Served in the Neurodiagnostic Laboratory, performing routine EEG on neonates and children, asleep, awake, or under conscious sedation. Additionally performed EP tests on adults. Utilized a 21 channel Nihon Koden EEG unit and used portable equipment to administer the test in other departments. Conducted BAER and VER studies on adults using a Nicolet unit.

EEG/EKG Technician

December 1995 to December 2000

BARNERT HOSPITAL • PATERSON, NJ

Began working as a nursing assistant to nurses and physicians in the Emergency Room. Advanced to unit coordinator in the Medical/Surgical Department in 1996, transcribing physicians' orders. Transferred in 1997 to the Cardiac/Neurology Department, performing EEG and EKG tests. Assisted the physician in the Pacemaker Clinic. Applied Holter monitors and downloaded recorded information. Additionally served as a preceptor for new nurses and medical assistants, demonstrating EKG techniques.
